

# OXY<sup>®</sup>

## EMERGENCY ZIT BLITZER 10 ml

### HOW DOES OXY EMERGENCY ZIT BLITZER WORK?

- + OXY Emergency Zit Blitzer's cooling agents start to visibly reduce the size and redness of spots within hours. This triple action formula includes Alcohol which ensures harmful micro organisms are destroyed. Tea Tree Oil, known for its antiseptic and antifungal properties, rids the skin of harmful bacteria. And Chamomile soothes the affected area whilst its antiseptic and anti-inflammatory capabilities assist in reducing redness within hours.

### + HOW DO I USE OXY EMERGENCY ZIT BLITZER?

At the first sign of redness, apply a small amount of OXY Zit Blitzer directly to the affected area. Gently tap or rub to ensure all the gel is absorbed for best results. Do not rinse off. Apply throughout the day (maximum of 4 times).

- + Although not recommended, make-up can be applied after the use of Oxy Zit Blitzer.

- + Oxy Emergency Zit Blitzer is a triple action antibacterial product.

Lot No:

Expiry Date:
